Unearthing the Moment

Mindful Applications of Existential-Humanistic
and Transpersonal Psychotherapy

This newly released *subjective-based* book offers 25 chapters written by a broad range of psychotherapists from Canada, China, and the United States. The authors share their experiences using existential-humanistic and transpersonal psychotherapy with diverse populations in far-reaching circumstances. *Unearthing the Moment* is rich with who the psychotherapists actually are and how they mindfully care for themselves, significant others, and their clients.
